HTML/CSS
React
Figma

Software Development

Java
Python
Django
UML
Android

Databases

Mongo
Postgres

System and Management

Trello
Jira
Git
Agile
Linux
Windows

PROFESSIONAL PROFILE

I'm Katheryn Rojas an independent and self-motivated bachelor looking for a position as a Software Developer where I can put in practice the knowledge I have gained during my studies.

During this time, I have worked under the SCRUM framework and learned some programming languages such as JavaScript, Typescript, Java. Databases such as MongoDB and PostgreSQL, and technologies like React, NodeJS, Knex, Objection, Mongoose and Git.

In the past I worked as a Materials Engineer where I developed my problem solving, research, interpersonal relationships and communication skills.

EDUCATION

- **Frontend Developer Specialization**
  Novare Potencial, Sweden (2022 - 2023)

- **Fullstack Developer Course**
  SmartCoding, Sweden (2022)

- **Bachelor Degree of Software Development Technology**
  IU Digital de Antioquia, Colombia (2019 - 2022)

- **Bachelor Degree of Materials Engineering**
  Universidad del Valle, Colombia (2010 - 2018)

WORK EXPERIENCE
